How your Assignments are assessed.

- Each assignment is made up of Tasks.
- You have Pass Tasks, Merit Tasks and Distinction Tasks.
- You must complete **ALL** pass tasks to achieve a **Pass**.
- You must complete **ALL** merit tasks to achieve a **Merit**.
- You must complete **ALL** distinction tasks to achieve a **Distinction**.

How your Assignments are assessed.

If you do not complete all PASS tasks, you have **NOT PASSED** the Assignment.

If you complete all PASS tasks, but do not complete all MERIT tasks you have **PASSED** the assignment.

If you complete **most** PASS tasks, and **all** MERIT and **all** DISTINCTION tasks, you have still **NOT PASSED** the unit.

You will get a single resubmission attempt to improve your mark.

P4 Tasks - 1

In this task you are required to design a program that you will end up building.

The program will need a scenario

One will be given to you in your Assignment brief

The most common ones in use are:

The Event Management Program

P4 Tasks - 2

For this assignment you will also need:

A client – the person who wants the program

Some users – people who will end up using it!

These people will need to review your designs and give you feedback

If you can work together in teams this would be useful!

P4 – Design tasks

- You will need to explain the stages of the Software development life cycle:
- Requirements gathering
- Design
- Development
- Implementation
- Testing

ALL TEXT COPYRIGHT © THECOMPUTINGTUTOR 2020. ALL RIGHTS RESERVED.

P4 – Design tasks

You will need to:

Get a client

Have an interview with the client

The assignment brief is deliberately vague

E.g. how are points awarded for position?

P4 – Design tasks

This means that hopefully you will all be building slightly different programs

This will all depend on what your client asks for

Remember someone else is going to be a client for you, so don’t ask for something impossible!

P4 – Design tasks

You will need to:

Summarise the problem
